## Summary

Professional with experience in Full-Stack Development, as a Freelancer on projects at Workana and ProgramaTHOR and also during the Internship period. Before migrating to Quality Assurance, I worked on the Roche-LATAM project in the Pharma sector, from the requirements gathering process, planning and execution of manual and automated tests as well as their respective documentation. Since 2021, I have started a transition in my focus, focusing more on Software Testing.

I have a degree in Software Engineering from the Federal Technological University of Paraná

In my professional journey, I look for opportunities that allow me to apply and expand these skills in development teams. I am motivated by projects that have the potential to transform and deliver quality, adding value to clients' businesses and activities.

I have expertise in the following Platforms and Languages:

Intermediate/Advanced Knowledge of Languages: Java, C, Javascript and Node;

Intermediate knowledge in Mobile Development: Android Studio (Java);

Intermediate knowledge in Desktop Development: Java;

Intermediate knowledge in Web Development: Javascript, Node, Express, Mustache, AJAX, HTML, CSS and Bootstrap;

Intermediate knowledge in Versioning Tools: Git, Github and GitLab;

Intermediate knowledge in CI/CD: GitHub and GitLab

Advanced API Testing knowledge: Postman, Talend API Tester and Cypress;

Intermediate/advanced knowledge in Database: MySQL, SQLServer, MongoDB, PostgreSQL and FireBase;

Intermediate/advanced knowledge in QA (Software Testing):

Cypress, Robot, Mockito, JUnit5, Appium and Selenium (IDE and WebDriver);

Knowledge in Testing Techniques: Unitary, Integration, Regression, White Box, Black Box, Boundary Value Analysis, Model Based, Control Flow Graph, Mutation Testing, Branch Coverage and Partitioning in Equivalence Classes.

Intermediate Knowledge in Office Package (Word, Excel and PowerPoint), Windows, Linux (Ubuntu, Mint);
